

SPRAY TIP FOR AIRLESS PAINT SPRAYER 40° 200-250 MM

VIMPAB415

The VITO VIMPAB415 Airless Spray Tip is designed to deliver efficient and uniform spraying on small to medium-sized surfaces. Compatible with the VIMPA850 airless paint sprayer, it features a 200-250mm spray fan and a 0.015" orifice, providing an excellent balance between coverage and control. Suitable for latex paints and water-based enamels, it is ideal for furniture, panels and other surfaces requiring a consistent finish and efficient application.
