

## SUCTION HOSE FOR WATER PUMP - 7 M ROLL

### VIMS1007

The Suction Hose with a 100mm diameter for Water Pumps, in a 7-meter roll, is the ideal choice to ensure efficient and reliable pumping in various applications, from agricultural irrigation to residential water collection systems. Made of PVC with spiral reinforcement, this hose offers superior abrasion resistance and excellent flexibility, easily adapting to demanding working conditions.

#### Key features

- > **Ideal length of 7 meters:** Designed with the exact length to meet the suction limit of most water pumps, ensuring the equipment operates at maximum capacity without loss of efficiency.
- > **Durable material:** Constructed from high-quality PVC with spiral reinforcement, providing durability and resistance against kinks and crushing.
- > **High capacity for negative pressure resistance:** Maintains a constant water flow, preventing interruptions during pumping.
- > **Flexible and lightweight:** Easy to handle and install, even in locations with curves or uneven terrain.

#### Specifications

Height	260 mm
Length	1100 mm
Product weight	11.501 kg
Size	7 m
Weight with packaging	11.501 kg
Width	1100 mm
