

2.5 MAGNIFYING LENS FOR AUTO-DARKENING WELDING HELMETS  
VIMSETC AND VIMSETCP

VIMSE.LA25

The VITO 2.5 magnifying lens offers enhanced magnification and superior clarity for detailed welding work. Designed for use with VIMSETC and VIMSETCP helmets, it ensures sharp visibility and precise control during welding. Built with high-quality, heat-resistant optical materials for long-lasting clarity and performance.

Key features

- > 2.5x magnification for detailed accuracy.
- > Compatible with VIMSETC and VIMSETCP helmets.
- > Improves ergonomics and visual comfort.
- > High heat and impact resistance.
- > Ideal for precision welding applications.

Specifications

Compatible with	VIMSETC, VIMSETCP
