

HEAD PROTECTION FOR AUTO-DARKENING WELDING HELMETS VIMSETC, VIMSETCP AND VIMSEA VIMSE.PC

The VITO head protection is designed for use with VIMSETC, VIMSETCP and VIMSEA electronic welding helmets, ensuring greater comfort and safety during extended use. Made from heat- and spark-resistant material, it protects the upper part of the head from heat and metallic splashes. Its ergonomic design ensures a secure fit and superior comfort even in intensive work sessions.

Key features

- > Compatible with VIMSETC, VIMSETCP and VIMSEA helmets.
- > Protects head from sparks and heat.
- > Ergonomic and comfortable design.
- > Lightweight yet durable construction.
- > Ideal for industrial and professional use.
