

MAGNIFYING LENS HOLDERS FOR  
VIMSETC AND VIMSETCP  
VIMSE.SLA

The VITO magnifying lens holders ensure a firm and accurate attachment of magnifying lenses to VIMSETC and VIMSETCP welding helmets. Made from heat- and deformation-resistant material, they offer durability and stability in demanding welding environments. They allow quick installation or replacement of lenses, improving comfort and precision during detailed welding tasks.

Key features

- > Compatible with VIMSETC and VIMSETCP helmets.
- > Secure, heat-resistant attachment.
- > Easy to install and replace.
- > Enables safe use of magnifying lenses.
- > Perfect for precision welding work.

Specifications

Compatible with	VIMSETC, VIMSETCP
