

FLUX-CORED WELDING MACHINE 100A VIMSF100

Key features

- > Cooling system;
- > Thermal overload protection;
- > Welds without a shielding gas;
- > Wire feed speed controller.

Specifications

Duty cycle	10% - 100 A
Fuse	16 A
Ground clamp cable	1,5 m
Height	400 mm
Insulation class	H
IP code	IP21S
Length	465 mm
Power cord	1,8 m
Power factor (cos Ø)	0,7
Product weight	12.772 kg
Rated power	3,6 kVA
Thermal protection	Yes
Torque adjustment positions	4
Ventilation system	Yes
Weight with packaging	13.781 kg
Welding current	50 - 100 A
Welding gun cable	1,9 m
Welding wire diameter	0,6 - 0,9 mm
Welds without a shielding gas	Yes
Width	235 mm
Wire feed speed controller	Yes
Wire spool (maximum)	1 kg
