

HAND PALLET TRUCK 2,5 T VIPP25A

VITO's 2.5T Hand Pallet Truck is suitable for moving and transporting pallets with loads in industrial environments such as warehouses, depots, and distribution centres. With a maximum lift of 20cm and a useful fork length of 1150mm, this tool allows you to move goods efficiently and safely. This hand pallet truck has a robust structure, reinforcing its strength and durability. In addition, it is equipped with polyurethane (PU) steer wheels and load wheels, as well as a control lever, which optimise its handling.

Key features

- > Supports loads of up to 2.5 tonnes;
- > Efficiency promoted by a maximum lift of 20cm;
- > Reinforced structure, ensuring durability;
- > Load wheels, steer wheels and control lever that optimise work.
