

HAND PALLET TRUCK 3,0 T VIPP30A

This reinforced structure tool allows heavy-duty pallets to be moved and transported in industrial environments such as warehouses, depots, and distribution centres. With a maximum lift height of 20 cm and a useful fork length of 1150 mm, it enables heavy loads to be handled efficiently and conveniently. Additionally, this hand pallet truck is equipped with polyurethane (PU) steer wheels and load wheels, as well as a control lever to assist with movement.

Key features

- > Supports loads of up to 3 tonnes;
- > Maximum height of 20 cm ensuring versatility;
- > Reinforced structure that increases durability;
- > Load wheels, steer wheels and control lever that optimise usage.

Specifications

Dimensions	540 x 1500 x 1235mm
Product weight	71,4 Kg
Fork length	1150 mm
Fork width	540 mm
Lifting height	min. 85mm / max. 200 mm
Wheels	PU
Load capacity	3000 Kg
