

WHEEL FOR PALLET TRUCK

VIPPRD200

The VITO pallet truck wheel is designed to provide durability, strength and smooth movement in manual lifting equipment. Made of high-quality polyurethane, it ensures low noise, excellent grip and high wear resistance even under heavy loads. Ideal for industrial, warehouse and logistics environments, it guarantees smooth and safe rolling, protecting floors and reducing operator effort.

Key features

- > High-strength polyurethane wheel for long-lasting performance.
- > Smooth and quiet movement for professional use.
- > Excellent grip and wear resistance.
- > Suitable for manual and industrial pallet trucks.
- > Protects floors and reduces effort during load transport.
