PROFESSIONAL SPRAYER 12L VIPUPRO12

VITO's 12-Litre Pro Sprayer is a professional solution for spraying disinfectants and neutral products and is ideal for use in a wide range of sectors, from construction sites to industrial contexts. This product, suitable for intensive and demanding professional applications, has a reinforced plastic construction with a level indicator and UV protection, which makes it durable and resistant to wear and tear caused by exposure to the sun. The anti-drip lid and wide filler neck with filter make it easier to fill the tank, reduce the risk of spillages and prevent particles and impurities from entering the spray system. With integrated Viton O-rings, the sprayer offers a reliable, long-lasting seal as well as chemical and thermal resistance against most solvents and disinfectants. It also includes a pressure regulator to precisely control the flow of product spray. It is also equipped with a trigger lock and a position brake that make working comfortable and safe.

Key features

- > High resistance to solvents and disinfectants;
- > 12-litre capacity, optimising tasks;
- > Level indicator, allowing you to manage liquid consumption;
- > The anti-drip lid and wide filler neck with filter make it easy to fill the tank and prevent accidents;
- > Viton O-rings that ensure a reliable seal;
- > Safety guaranteed by the position brake and trigger lock;
- > Two adjustable shoulder straps ensuring comfort and ergonomics.

Specifications

Accessories	Yes
