

REPLACEMENT CARTRIDGE FOR 2L LARGE FILTER 2L

VIRFG

This refill is ideal for replacing the filter element of the 2L VIFAPG Large Filter from VITO. Compatible with filters that have 1" (25.4 mm) inlet/outlet and can withstand a maximum pressure of 6 bar and a flow rate of 30 L/min. It ensures efficient filtration for systems operating up to 40°C, maintaining the protection and performance of your filtration system. The refill ensures the continued effectiveness of the filter, providing the same quality and durability as the original product.
