

## REPLACEMENT CARTRIDGE FOR 1L SMALL FILTER 1L

### VIRFP

This refill is designed to replace the filter element of the 1L VIFAPP Small Filter from VITO. Compatible with filters that have 1" (25.4 mm) inlet/outlet, it can withstand a maximum pressure of 6 bar and a flow rate of 30 L/min. Ideal for filtration systems operating at temperatures up to 40°C, this refill maintains the efficiency and protection of your filtration system, extending the filter's lifespan and ensuring continuous and effective performance.
