

## 52CC - 1.6KW EKO WHEELED BRUSHCUTTER VIRR52E

VITO's 52CC EKO WHEELED BRUSH CUTTER (VIRR52E) is designed to clear land with less effort. This brush cutter has a sturdy design with two pneumatic wheels, ensuring more grip and stability on the soil and greater comfort for the user. Additionally, the handlebar is adjustable and has three height levels, allowing it to be adapted to each specific need. Powered by a 2-stroke combustion engine with a power of 2.15 hp / 1.6 kW, it offers low consumption and minimizes environmental impact by complying with the Euro V standard.

### Key features

- > Easy displacement
- > Adjustable handlebar
- > Low consumption
- > 1L tank capacity and 1.5h autonomy
- > Cutting width of 255mm

### Specifications

|                         |                              |
|-------------------------|------------------------------|
| Autonomy                | <b>1.5 h</b>                 |
| Cutting blade width     | <b>255 mm</b>                |
| Engine                  | <b>Combustion - 2 Stroke</b> |
| Engine displacement     | <b>52 cc</b>                 |
| Fuel                    | <b>Mixture - 1:40</b>        |
| Fuel tank capacity      | <b>1 L</b>                   |
| Rotation speed          | <b>8500 rpm</b>              |
| Shaft tube diameter     | <b>26 mm</b>                 |
| Shaft tube length       | <b>500 mm</b>                |
| Sound power level (LWA) | <b>114 dB</b>                |
| Dimensions              | <b>1200 x 430 x 1030 mm</b>  |
| Product weight          | <b>13.5 Kg</b>               |
| Weight with packaging   | <b>15,3 Kg</b>               |
| Packaging dimensions    | <b>575 x 320 x 465 mm</b>    |
| Rated power             | <b>2.15 cv   1.6 kW</b>      |
