

SAFETY SHOE S3 LITHOS VISL37

The Lithos Shoe from VITO combines design with security, ensuring greater day-to-day productivity for all professionals. This model features a composite toecap, energy absorption in the heel region to minimise the effects of fatigue and a removable insole, offering maximum comfort. The S3-rated Lithos shoe, with its anti-static and slip-resistant (SRC) sole, is resistant to water penetration and absorption, complying with all the Requirements of the European Standard EN ISO 20345: 2011.

Key features

- > Resistance to penetration and water absorption;
- > Anti-static sole;
- > Energy absorption on the heel;
- > Anti-perforation sole;
- > Anti-slip SRC;
- > Composite toe cap.
