

## SAFETY SHOE S1PL MOON VISM37

The Moon S1PL safety shoe is designed to provide effective protection combined with lightness and flexibility, suitable for industrial, logistics and maintenance environments. The textile upper enhances breathability, while the composite toe cap offers impact protection without metal components. The non-metallic anti-perforation insole made of synthetic aramid fibre ensures puncture resistance while maintaining flexibility. The rubber outsole provides good grip and wear resistance on various surfaces. Certified according to EN ISO 20345:2022 + A1:2024 with S1PL classification, it meets essential safety requirements for professional footwear.

### Key features

- > Breathable textile upper
- > Non-metallic composite toe cap
- > Aramid fibre anti-perforation insole
- > Durable rubber outsole
- > Lightweight and flexible design
- > Suitable for daily professional use
- > EN ISO 20345:2022 + A1:2024 certified

### Specifications

Certification	EN ISO 20345: 2011
Coating	Fabric
Safety Rating	S1P
Slip resistance	SRA
Sole	Rubber
Toe cap	Composite
Midsole	Aramid synthetic fiber
Weight	458 gr
Size	37

### Variants

Reference	Size
VISM37	37
VISM38	38
VISM39	39
VISM40	40
VISM41	41
VISM42	42
VISM43	43
VISM44	44

VISM45	45
