

SAFETY SHOE V-CARBON WATER BLUE

VISVCWB37

These safety shoes have been developed for professionals seeking maximum protection without compromising on ergonomics. The carbon fibre toe cap offers superior impact resistance, combining safety with lightness and comfort, reducing fatigue, and improving mobility during work. The fabric and TPU (thermoplastic polyurethane) lining provides durability, flexibility, and breathability, keeping your feet dry. The synthetic aramid fibre midsole ensures effective protection against punctures. The EVA and rubber sole ensures cushioning, stability and excellent grip, reducing the risk of accidents. With an S3 safety rating, SR slip resistance, and certification according to EN ISO 20345:2022, the V-Carbon represents the ideal balance between technology, comfort, and safety, combining robust construction with a discreet and contemporary style.

Key features

- > Advanced protection and superior lightness, thanks to the carbon fibre toe cap;
- > EVA + rubber sole that absorbs impact and reduces fatigue;
- > Aramid fibre midsole for protection against punctures and cuts;
- > Safety certified by EN ISO 20345:2022, with S3 classification and SR slip resistance;
- > Modern design that combines comfort, aesthetics, and functionality.

Specifications

Certification	EN ISO 20345:2022
Coating	Fabric + TPU
Safety Rating	S3S
Slip resistance	SR
Sole	EVA + rubber
Toe cap	Carbon fiber
Midsole	Synthetic Aramid Fiber
Size	37
