

TOOL ROLLER CABINET WITH 7 DRAWERS

VITF7GA

VITO`s Tool Roller Cabinet with 7 Drawers offers a practical and efficient solution for organising tools and accessories. With a robust structure and functional design, it is the ideal ally for any workshop, garage, or workspace. Equipped with a lockable side door, it provides additional storage space for various items. In addition, it features a stainless-steel worktop with dividers that can be used as a workbench, maximising the roller cabinet`s usefulness. Drawers with oil and chemical-resistant dividers ensure safe organisation, while smooth-gliding slides ensure practical and comfortable use. In addition, each drawer supports up to 35 kg/45 kg, allowing you to store various tools without compromising stability. For added security, the trolley includes independent locks on the drawers and side door, each with two keys, ensuring total protection for your tools.

Key features

- > 7 drawers for organising tools in workspaces;
- > Comfortable and sturdy handle for easy transport;
- > Side door with lock for additional organisation;
