

LAWN RAKE WITH LEAF PICKER VIVRAF

A VITO product designed to pick up leaves and garden debris quickly and easily without touching them with your hands. With this model of Lawn Rake with Leaf Picker, garden maintenance becomes a simpler and less time-consuming task. Besides being the ideal solution for collecting leaves, this rake also serves to sweep gardens, flowerbeds, and even paved areas such as pavements and patios.

Key features

- > Easy and quick collection;
- > Reduced fatigue with improved body posture;
- > 2 simultaneous functions: this rake sweeps and collects debris, reducing the workload;
- > Integrated pick-up and collection system: equipped with an innovative mechanism that allows you to pick up and collect leaves in a single movement, eliminating the need to use shovels.
